

# Built by tax professionals. Designed for a better experience.

More Expertise. More Support. Better Results.

## SALES TAX COMPLIANCE SUITE

**Clarus Tax Technologies**, founded in 2018, builds sales tax software designed for your business to manage sales tax compliance directly, without the complexity, bloat, or runaway costs of traditional enterprise systems.

Our platform includes accurate sales tax calculation, exemption certificate management, return preparation and filing, and license tracking, supported by real-time rates and rules and practical workflows designed for how tax teams actually operate.

### Why Businesses Choose Clarus

- Technology built by **real sales tax** professionals
- **Flexible integrations** tailored to your existing workflows
- Simple, **scalable solutions** your team can actually use
- **One dedicated contact**, no rotating teams or tickets
- **US-based support** that stays with you through go-live

### What Your Team Will Love

- **Hands-on support** that keeps projects moving
- **Lower pricing** without sacrificing quality
- **Faster implementation** with far fewer handoffs
- **Focused platform**, calc, certificates, & licensing. No bloat
- **Reliable technology** designed for real tax workflows

### The Clarus Difference

While other providers spread across dozens of products, we focus entirely on sales tax calculation, exemption certificates, return management, and licensing. Your team get a dedicated expert, not a ticket number.

### How Clarus Works for You

1

#### Discovery

Talk with a sales tax expert about where you stand and what you need.

2

#### Implement

Quick setup with integrations connected the right way the first time.

3

#### Calculate & Comply

Accurate, real-time tax calculations, certificate management, and automated returns filings

4

#### Stay Audit-Ready

Dedicated support that knows your business and keeps you compliant.

*Let's talk about how Clarus can simplify sales tax for your team.*

ACCURATE SALES TAX CALCULATION | CERTIFICATE MANAGEMENT | LICENSE COMPLIANCE

clarustaxtech.com | Sales Tax Compliance Software

# Software built by tax experts. Designed for your business.

Sales tax software built for project success.

## AkuCalc

Clear & Simple Sales Tax Calculation

Calculates accurate sales tax in real-time using embedded tax logic and current jurisdictional rates. Integrates easily with ERP, e-commerce, and billing systems to calculate tax automatically.

## AkuCert

Clear & Critical Exemption Certificate Management

Centralizes exemption certificates and streamlines collection with built-in tools to support validation and audit readiness. Reduces manual follow-up and keeps certificate records organized and accessible.

## AkuLicense

Clear & Comprehensive Business License Management

Tracks license requirements, deadlines, and renewals across jurisdictions. Gives you visibility into compliance obligations and reduces the risk of missed filings — across all 160,000+ governing authorities.

## Returns

Clear & Streamlined Sales Tax Return Filing

Automates sales tax return preparation and filing across jurisdictions. Tracks deadlines, supports remittance, and maintains filing history to reduce errors and avoid last-minute scrambles.

### What customers are saying

*"The AkuCert software has been incredibly helpful in quickly identifying companies that claimed to be tax-exempt but were not. Not having to worry about that risk is very comforting."*

Randy Boyd, President, AC Supply Co.
